

## Medical Marijuana Patients Per Doctor

### March 2011

At time the SB 423 conference committee was meeting and decided on review limit:

- 360 doctors registered with the program
- 303 doctors had 20 or fewer patients
- Another 10 doctors had 21 to 30 patients
- 47 had more than 30 patients. Of those, 32 had more than 100 patients

### In July 2011 (after SB 423 went into effect)

DPHHS provided a more complete breakdown based on a legislative request

- 365 physicians providing written certification
- 304 physicians had 20 or fewer
- Another 12 physicians had 21 to 30 patients
- 49 had more than 30 patients. Of those, 33 had more than 100 patients.
- Of the 33 with more than 100 patients, 11 had more than 1,000 patients, 2 had between 3,221 and 3,389 patients, and 1 had 6,861 to 6,870 patients

### January 2013

Most recent registry statistics

- 203 physicians providing written certification
- 182 physicians had 20 or fewer patients
- 2 physicians had 21 to 30 patients
- 19 physicians had more than 30 patients
- 11 physicians had 100 or more patients. Of those, 1 had 1,031 to 1,040 patients and 1 had 2,361 to 2,370 patients
